

Contractor Management

Perfect for:

- ✓ Work Order Requests
- ✓ Scheduled Preventative Maintenance
- ✓ Inductions
- ✓ Tracking of Workers Compensation and Public Liability Certificates of Currency
- ✓ Contractor Non-Conformance Report
- ✓ Contracts and Service Agreements

A full range of benefits

Reliable Request Tracking

Evidence of the request process and email notifications updating the Originator of any updates.

Increased Productivity

Enhanced transparency reduces the need for constant chasing and follow ups.

Centralised Fully Integrated Platform

Manage all your organisation's many facilities requirements with a simple-to-use cloud based platform to ensure peace of mind.

Real Time Analytics

Dashboard snapshots provide insights allowing management teams to make informed decisions.

Preventative Maintenance

Schedule your program and generate a request including allocated contractor.

Contractor Entry Portal

Using ermonline's Contractor Entry Portal, Contractor certificates are validated seamlessly with automatic notifications to key staff when Company certificates (ie. Public Liability and Workers Compensation) or Employee certificates (induction) are invalid.
